

METALLON
GROUP

INNOVATE TO EXCEL

About Us

Metallon Holdings Limited (MHL), incorporated couple of decades back in Hong Kong, has successfully created a vibrant business hub, connecting China, Hong Kong and USA to India, helping scores of the largest of plants & projects of all types in the process. It's **Global Presence**, followed by its **Glocal Approach**, has always reflected of attributes like Credibility, Values and Ethics.

VISION

To evolve into a brand that's trusted by the largest of corporations globally, by combining top of the line technology, immaculate execution, and highly customised project deliveries and services.

MISSION

To keep surpassing international industry standards across all deliveries, while achieving excellence through innovation.

Metallon's strategically spread group companies are experienced in Projects/Plants of every kind, banking on a global network for equipment, services and supplies. The fact that Metallon has added **ARTIFICIAL INTELLIGENCE AND ROBOTS** to its coterie, has further strengthened its technological offerings.

The Metallon Group has thus far proved itself as an able **INVESTMENT PARTNER FOR MANUFACTURING** leveraging on its vast network, which includes a wide array of CHINA'S INDUSTRIAL UNITS. Due to its strong Asia Pacific presence, especially spanning strategic hubs across PR China, along with a host of favourable interpersonal relationships ('Guanxi'), Metallon is in a splendid position to even **ARRANGE FUNDS FOR PROMISING PROJECTS**.

Metallon, an ISO 9001:2015 corporation, believes that due to its continuous pursuit of technologically superior solutions, bolstered by its various futuristic innovations, can continually be able to meet industry requirements for a smarter tomorrow!

Chairman Emeritus

**Mr. Rajeshwar Mishra,
Chairman Emeritus, Metallon Group**

Mr. Rajeshwar Mishra, a Metallurgist from BITS, SINDRI and AMP Graduate from Harvard Business School (USA), is a globally reckoned name in the field of Management and Leadership having over 40 years of experience as the CEO of Indian MNCs. His in-depth insights emanate from the Management Development Programmes (MDP) attended by him, including IIMA, IIFT, TMTC and NITIE. Post training in Refractories Research and Technical Services in the early 70's, he's also been a regular at Harbinson-Walker (USA).

Mr. Mishra's successful career is dotted with rich experiences spread across over 40 years in the field of Refractories and Steel, including those with industry giants like Tata Steel and ArcelorMittal. He has also been a reputed panelist for International Business and Economic Forums. He has been the Chairman of various Committees of Indian Refractory Makers Association, and has had the distinction of leading international business delegations.

He is an expert on Indo-Sino businesses and culture, and was an active member of the group when the Indian Prime Minister, Shri A. B. Bajpai visited China in 2003, and also when the Chinese Premier, Mr. Wen Jaibo visited India in 2005.

He has the distinction of being a panelist on CCTV dialogues, along with CCPIT Chief and CNBC, besides the World Economic Forum in 2004. He has been a regular in Global Bihar Meets, along with Lord Meghanath Desai. His presentation at Darbhanga Medical College was appreciated by Dr. A.P.J. Abdul Kalam, who continues to remain his idol.

He is an active life member of several Associations and Societies, the most prominent of which, include AIST (USA), IIM, IIC, American Ceramic Society, Indian Institute of Marketing Management, All India Management Association (AIMA), CII and FICCI. He has been felicitated with several awards and recognitions.

He has a patent for Roof Lining for EAF from the year 1975, which was a rare achievement then.

A staunch believer of Ethics, Values and Corporate Governance, he advocates for transparency in the truest of spirits.

A Charitable Trust christened after him, the 'Rajeshwar Mishra Charitable Trust' (RMCT), remains dedicated towards a multitude of philanthropic works.

Director

Mrs. Kamini Mishra is the founder of a Wholly Owned Foreign Enterprise located within the SEZ of the Tianjin port city in the mainland. She is also the Legal Representative and Head of Metallon International (Tianjin) Co. Ltd.

Indian by birth, she is fluent in Mandarin, with her offices in Beijing & Tianjin, where she spends most of her time. A second generation entrepreneur, she has a strong industrial background, with her father being a Senior Vice President in an Integrated Iron & Steel Mill and her brother an industrialist, engaged in global import & export of ferrous and non-ferrous metals.

Owing to her long standing association with heavy industries and various business houses, Mrs. Kamini is an accomplished professional, held in high regard across industry circles. She is equally respected for her integrity, credibility and dedication towards her clients and associates.

As a part of the senior leadership and the Head of Finance and Administration, she has always played a vital role in the Group. As a thought partner, she has always led the core team right from the front, especially in matters of finance, business planning, human resources, administration and logistics. Her in-depth knowledge of commercial trading is trustworthy, accurate and far-sighted. She ensures implementation of all necessary business policies and accounting practices, oversees administrative functions to ensure efficient and consistent operations, helping the organisation soar to greater heights.

She is one of the founders of Rajeshwar Mishra Charitable trust, and pursues the same in a whole-hearted manner.

Chairman cum Managing Director

Mr. Navin Mishra is a first generation entrepreneur with extensive experience in the fields of International Trade, Project Delivery, Business Consultancy and Commerce. Being an MBA, he has intensive training through several Management Development Programmes (MDP) from IIM, Calcutta. He also holds a Diploma on Management Teachings from the Cambridge University.

Mr. Navin has actively participated in numerous Seminars and Workshops and presented several of his researches and papers. He is a member of the Indian Ceramics Society as well as The American Ceramic Society. He has been the proud recipient of several prestigious awards, including a 'Letter of Appreciation from the office of the Prime Minister of India'.

His visionary approach is corroborated by the fact that it was he who foresaw the absolute value of introducing Artificial Intelligence and AI-Powered Robots into the gamut of services offered by Metallon, benefitting the Indian Minerals, Mining & Metals (MMM) Industry in a timely manner, and bringing along a host of first movers' advantages to the Group's clients.

He has co-authored several articles on contemporary subjects related to Coal and Coke (Environment Pollution and Latest Technologies), besides presenting an array of papers on Retail Marketing Management.

He has been an active member across several forums, including those of FICCI, CII, BCCI, ASSOCHAM, Indo-German Chamber of Commerce, US-Indo Chamber of Commerce, MOFCOM and CCPIT.

As the Secretary of the 'Rajeshwar Mishra Charitable Trust' (RMCT), Mr. Mishra plays out his deep passion of extending a supporting hand to the needy, and towards making this world a better place!

Mining Equipment & Spares (For Open Pits as well as Underground Mines)

Mining has always been an integral part of Metallon's key forte. Which is why you can always count on Metallon for the highest standards and quality of Mining Equipment and Spares, both standard type, as well as tailor-made. In fact, Metallon's quality assurances and guarantees make these products comparable with any international quality and standards for mining equipment.

Metallon has tie-ups with premiere Design & Engineering Mining Institutes from the world over, extending technological advantages in Mining Methods & Techniques, Mine Pressure & Strata Control, and Mine Safety & Clean Energy Utilization. It has been a constant practice at Metallon to work in unison with its clients on the implementation of more efficient practices for supply chain facilities.

Metallon - Foraying into EPC!

Engineering, Procurement & Construction

The rise from a Plant & Machinery Supplier, Engineering Consultant, and Solutions Provider, to the fuller portfolio of comprehensive Engineering, Procurement & Construction Services, hasn't become a reality overnight. It has taken years of understanding market requirements, testing our own mettle, and exceeding client expectations.

Today, Metallon encompasses all the 3 critical pillars of project execution, and has been inherently performing these functions as part of its regular operations. With this formal foray, Metallon is now consolidating and streamlining its offerings under a dedicated EPC Division to better serve its clients with end-to-end solutions.

Metallon's EPC services span the complete spectrum of project execution, including:

■ **Concept Engineering**

■ **Procurement Assistance**

■ **Basic Engineering**

■ **Project Construction & Commissioning**

■ **Detail Engineering**

■ **Performance Guarantee Testing**

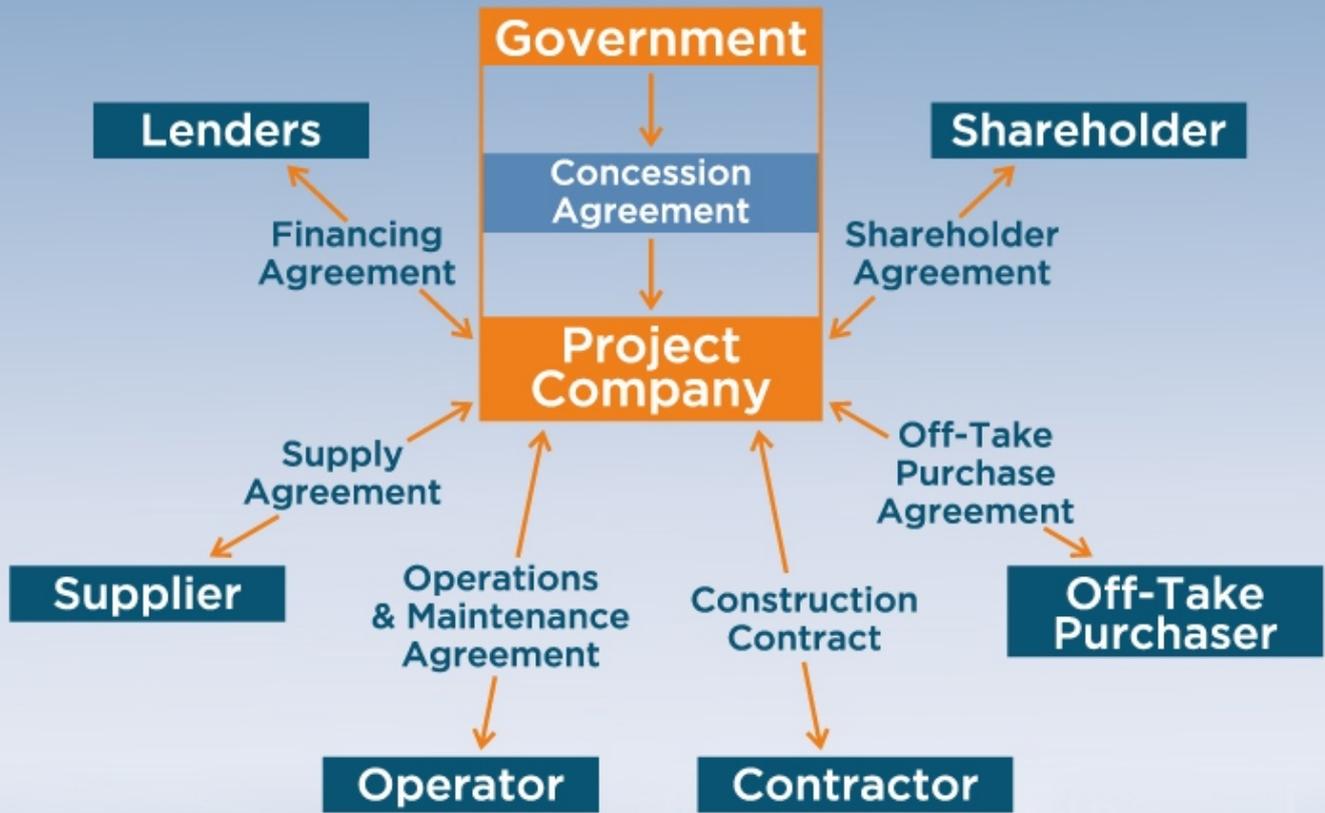

Metallon's deep techno-commercial understanding, global vendor base, and logistical strength enable it to deliver optimized solutions, like balancing quality, cost-efficiency, and timely execution.

True to its guiding philosophy of 'Customer First', this new chapter continues its legacy of commitment, innovation, and excellence.

The cornerstone of Metallon's strength emanates from the visionary leadership of its **Founder & Chairman Emeritus, Shri Rajeshwar Mishra**, a globally respected authority in Metallurgy and Refractories. His expertise and global network have consistently positioned Metallon as a trusted partner across the global industrial and steelmaking canvas.

Metallon's BOT Model

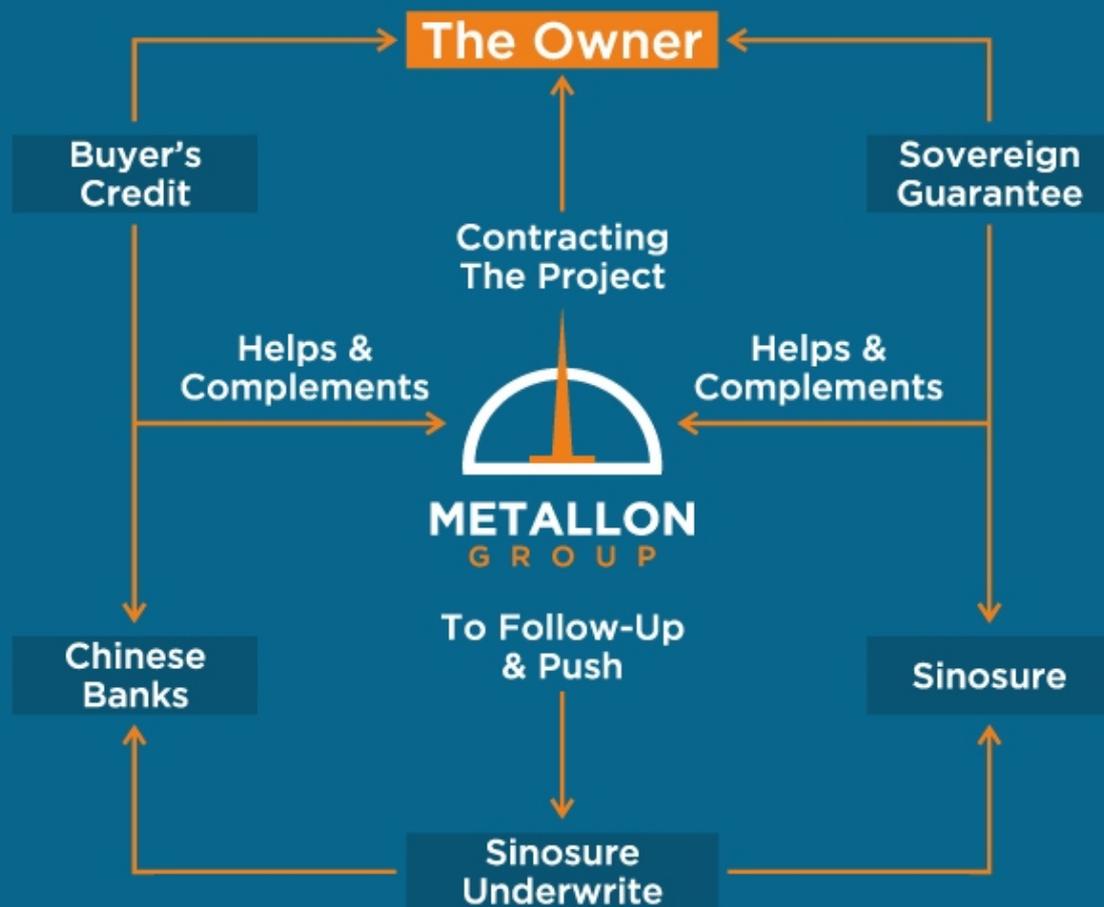

Project Participants and Contractual Relationships in Metallon's 'Build, Operate and Transfer' Model

Financial Process Chart

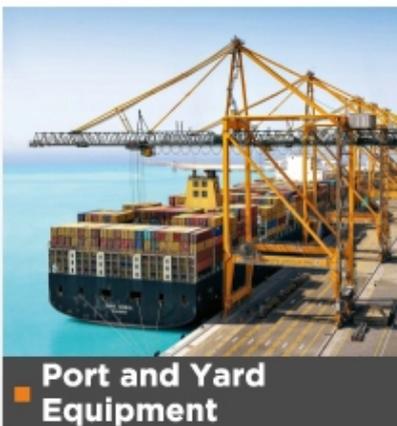

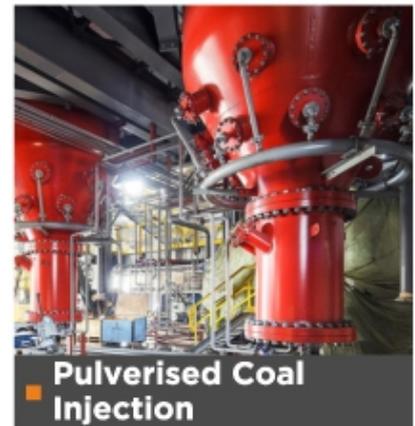

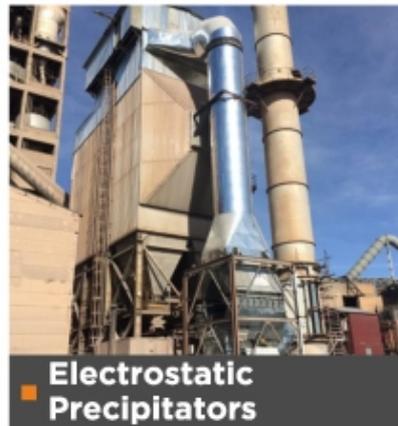

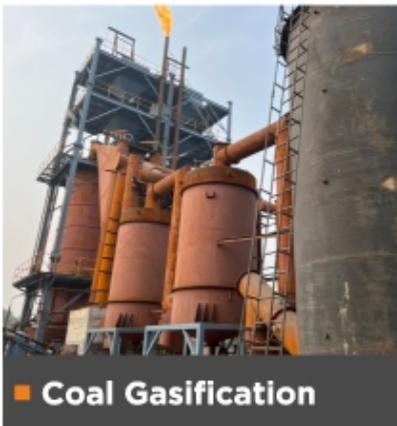

Metallon can be instrumental in facilitating/arranging finances (Equity) from PR China for promising projects (Pan India), especially for Metallurgical projects, vetted by the Chinese Financial Institution.

Metallon's Technological Prowess

Dynamically shifting markets subject to ever-evolving technologies, is today's reality, and everyone's perennially gearing up for it. Within those gradual evolutions, today's top lookouts are for cost-effectiveness, easy adaptability, production efficacy, enhanced efficiency, along with a global perspective.

Metallon has been regularly exceeding client expectations in this regard, especially due to its global network, cost leadership, delivery expertise, and best-in-class technologies. The following kinds of industrial systems and related technologies are what Metallon truly specialises in!

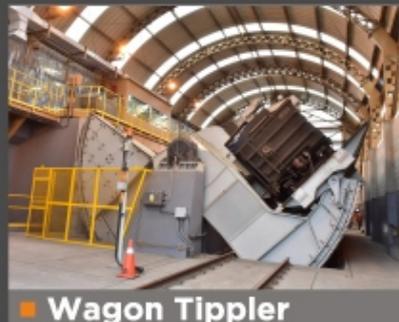

Critical and Capital Equipment

Due to its Global Network along with its Glocal Approach, Metallon understands the criticality and is in an excellent position to fulfill client requirements for various Capital Equipment, for both metallurgical as well as non-metallurgical industries. It also provides guarantees on behalf of its global as well as domestic suppliers as to the quality and longevity of the equipment, apart from providing a steady supply of spares, consumables and services as and when required.

Its long term associations with multiple client across various industries, is a testament to the quality of products and services provided by Metallon.

Electrical & Electronic Equipment & Spares

Metallon, with its high levels of precession and proficiency, has gained tremendous expertise in all kinds of Electrical & Electronic Equipment and Accessories, with which it has been steadily contributing to the unhampered production of metallurgical industries as well as power plants while offering the best in energy management solutions, aimed at reducing cost, boosting efficiency and enhancing productivity. One key aspect of Metallon's acumen has been acquired by simply listening to its customers' wants and needs, comprehending those, and providing for the same through a bouquet of effective solutions from right across the globe!

- **Motors:** AC & DC for both LT & HT
- **Contactors:** AC and DC Contactors for controlling Power Circuits
- **Circuit Breakers:** MCBs, ACBs and more, for Overload and Short-Circuit Protection
- **Cables and Connectors:** Various types of Industrial HT Cables & Connectors
- **Sensors:** Temperature, Pressure and other Sensors for Process Control
- **Relays:** Control Relays, Auxiliary Relays and Timers
- **Inverters and Drives:** Variable Frequency Drives (VFDs) to control Motor Speeds

Core Offerings of Metallon

Metallon's biggest specialisation lies in the turnkey transfer of Projects and Plants. This includes the know-how, even from multiple locations if desired, apart from the technology, design, construction, trial runs, and other services.

Being well-networked with some of the most reputed industrial groups globally, Metallon has successfully executed and commissioned scores of projects on both EPC and well as EPS basis. Add to it years of its market survey experience, Metallon can also manage the critical process of vendor coordination and finalisation.

Metallon can take up all kinds of Projects and Plants, especially the ones related to these industries!

Artificial Intelligence and Robotics

AI-Powered Robots for the Indian ‘Minerals, Mining and Metals’ (MMM) Industry!

Robots can operate in the most dangerous of environments, handle extremely heavy loads with precision, and work pretty much forever. For Mining they come in the forms of Autonomous Mining & Haulage Trucks, Robotic Drilling Rigs, Hazard Monitoring Robots, Mine Inspection Robots, and Defence Robots. For the Metals industry, we have Articulated Robots (most versatile, used for welding, painting, assembly), SCARA Robots (fast and accurate for pick-and-place, assembly, packaging), Cartesian Robots (for handling, loading/unloading, sorting, picking & placing), Delta Robots (high speed and precision for rapid movements), Cylindrical Robots (suitable for tight spaces, machine loading/ unloading), Polar Robots (flexible reach for various tasks like welding, painting, forging), and Collaborative Robots (cobots) which can work alongside humans for tasks like assembly and machine tending. All these robots are equipped with sensors, cameras, and AI-powered advanced technologies.

Making AI and Robots work in perfect tandem for the MMM Industry, is what Metallon specialises in. With its in-depth understanding of machine learning and artificial intelligence concepts, Metallon can design intelligent & efficient algorithms for robots to execute complex tasks with remarkable precision, which can prove to be game-changing for the Indian MMM Industry in terms of Economy, Efficiency, Productivity, Quality, Safety, Sustainability and Profitability.

Join us in this Noble Cause

The Rajeshwar Mishra Charitable Trust, also referred to as RMCT, is a unique initiative of the Metallon Group. The Group's Chairman Emeritus, Mr. Rajeshwar Mishra, is a well reputed philanthropist, not only across India, but across the globe. His various social services have brought hordes of accolades and appreciation from the world over for Metallon, with the entire Group imbuing that deep sense of empathy, panache and joy of giving from Mr. Mishra.

The Rajeshwar Mishra Charitable Trust is a Corporate Social Responsibility initiative by the Metallon Group aimed at making the world a better place for thousands of needy, all the while focussing on key social aspects. While the Metallon Group spends way more on its CSR than mandated, it does so using its own funds and resources, without ever depending on any Charities or Grants!

Dear Sir/ Madam,

Re: Performance of RDI/ RI & Softening & Melting Testing Apparatus

We have procured two set of RDI/RI testing Apparatus and One Softening & Melting Apparatus from you in 2016.The Equipments are in continuous use for testing the quality of raw materials fed to our Blast Furnace and the performance of the equipments is satisfactory.

We are happy to mention that these equipments are fully automatic and operated through PC, takes very less place and the operation of these apparatus is much easier and safe.

Equipments are more or less maintenance free & without much breakdowns. If we could carry out the Maintenance as prescribed by you the equipments runs smoothly and breakdown free.

Further we thank for your prompt support provided to us as and when required

Thanks & Regards

To whomsoever it may concern

This is to certify that M/S Mishra Ispat Pvt. Ltd. has been developing vendors in China for Hooghly Met Coke Division of Tata Steel for its coke oven plant at Haldia. They have been consistently supplying electrical and mechanical spares, machines, refractories and various other components required for coke oven plant at a cost efficient price. The items sourced through them have exhibited a good quality. The company is quite professional in maintaining its delivery commitments and offers a good support for after sales service if required.
